Canada

Trade-marks Journal
Vol. 65 No. 3325

General Information

The *Trade-marks Journal* is published every week in compliance with Rule 15 of the *Trade-marks Regulations*. The Registrar of Trade-marks cannot guarantee the accuracy of this publication, nor assume any responsibility for errors or omissions or the consequence of these. All mail relating to trademarks should be addressed to the Registrar of Trade-marks, 50 Victoria Street, Gatineau, Quebec, Canada, K1A 0C9.

Electronic *Trade-marks Journal*

The *Trade-marks Journal* is available in electronic form on the CIPO web site (http://cipo.gc.ca). The *Journal* is available in PDF format and can be downloaded free of charge, viewed and printed with Adobe Acrobat Reader. The electronic form of the *Trade-marks Journal* is the official version.

The *Journal* is also available in a printable HTML format as an alternate official version, and contains a search function to narrow and customize the *Journal* content to user defined areas of interest.

Official Languages

The *Journal* is available in English and in French. The application details are displayed based on the language of the application. If the language of the application is English, the goods, services, or other text and description appearing in the English version of the Journal are in the language filed by the applicant. If the language of the application is French, the goods, services, or other text and description appearing in the English version of the Journal have been translated. Any registration resulting from the application will be restricted to these goods or services described therein.

Filing Dates

The filing date of each trademark application advertised in the *Trade-marks Journal*, including those to extend the statement of goods or services of an existing registration, is shown next to the application number in the sequence of Year, Month and Day.

Nice Classification

The *Journal* includes reference to the Nice classification when the goods or services of an application have been grouped and classed by the applicant in accordance with the current version and edition of the Nice Classification.

Opposition

Any person who has a valid ground of opposition (see section 38 of the *Trade-marks Act* for the grounds of opposition) to any application for registration of a trademark or to any application for registration of a trademark extending the statement of goods or services advertised in this *Trade-marks Journal* may file a statement of opposition with the Registrar of Trade-marks within two months from the date of issue of this publication. The prescribed fee must accompany the statement of opposition.

agricultural pesticides, surfactants for use in connection with agricultural fertilizer; surface-active chemical agents, namely, surfactants for use in the manufacture of synthetic detergents, surfactants for treating machinery used in printing processes, surfactants for use as drying aids, surfactants for use in the manufacture of animal foodstuffs; chemical additives and products for detergents for use in industrial processes; chemical additives and products for use in detergents for use in manufacturing processes; plasticizers; plastics as raw materials; industrial chemicals for the control of odour and corrosion in waste stream; salts for industrial purposes, namely, inorganic salts, aluminium salts, ammoniacal salts, ammonium salts, calcium salts, chrome salts, chromic salts, gluconic salts, gold salts, iodised salts, iron salts, magnesium salts, mercury salts, metal salts, potassium salts, salts (fertilisers), sodium salts (chemical compounds), salts organic acid, salts of metals; industrial gases, namely, gases for welding, gases for laboratory use (other than for medical use), gases for use in cutting, gases for use in air conditioners, gases for use in burning, gases for use in dispensing liquids, gases for use in flame spraying, gases for use in metal production, gases for use with aerosols, gas with heat insulating effects, gas with sound insulating effects; refrigerants; industrial minerals; chemicals used in photography; manures; fire extinguishing compositions; tempering and soldering preparations; tanning substances; primers, namely, expoxy primers, sealant primers, paint primers; paint thinners; paint thickeners; binding agents, namely, binding agents for paints; sealants, namely, paint sealers; pigments for use in the manufacture of coloured paper, cosmetics, pharmaceuticals, printing inks, synthetic fibres; pigments having bronzing properties; organic pigments; fire retardant pigments; electrically conductive pigments for use in manufacture of lacquers; inorganic metal oxide pigments; silver emulsion pigments; titanium pigments; preservatives and coatings against rust, tarnishing, abrasion, corrosion, heat, flames, damp, mould, vandalism; preservatives and coatings against deterioration of wood, metal, stone, concrete, masonry, brickwork, surfaces of structures; colorants for application to wood; colourants for beverages, food, paints, grouts, leather, mortars, concrete, textiles, printing inks; tinters for paints; mordants, namely, mordant dyes, mordant fixatives for water colours, mordant fixatives in the nature of varnishes, mordants for wood; dyestuffs for textiles; dyestuffs for wood; annatto (dyestuffs); annotto (dyestuffs); dyes, namely, alizarin dyes, aniline dyes, fabric dyes, food dyes, wood dyes, shoes dyes and solvent dyes for wood; inks; raw natural resins; oils namely, oil paints and oils in the nature of preservatives and coating against rust, corrosion, tarnishing and preserving against deterioration of wood or metal or other surfaces; mastic for use as varnish; powders, namely, powered paints, powdered resin paints; toners in the nature of dyestuffs; waxes, namely, wax-based varnishes; machines and machine tools, namely milling machines and parts and fittings for all the aforesaid goods; machines used in the treatment of drinking water, waste water, waste streams, effluent and sewerage and parts and fittings for all the aforesaid goods; apparatus namely, hydraulic controls for controlling the operation of machines and parts and fittings for all the aforesaid goods; chemical handling machines, cleaning apparatus namely, industrial fluid cleaning machines, abrasive blast cleaning machines, namely, for industrial and manufacturing purposes, dosing machines, chemical dosing units and parts and fittings for all the aforesaid goods; equipment for the treatment and recycling and removal of contaminants, namely, for the regeneration of ion exchange resin and recycling of brine and other waste created from the process of using ion exchange resin to remove contaminants from water namely ground water, municipal water, industrial process water, wastewater, waste streams, potable water, drinking water, sewerage, effluent, industrial and bio technology process streams and industrial process waste namely, brine waste and parts and fittings for all the aforesaid goods; ion-exchange system for treating drinking water, wastewater, waste streams, and industrial process water, comprised of reservoirs, pumps, and mixers, and a magnetic ion exchange resin, for removing various contaminants and parts and fittings for all the aforesaid goods; waste purification units incorporating magnetic ion exchange technology for the treatment and recycling and removal of

contaminants from water, namely ground water, municipal water, industrial process water, wastewater, waste streams, potable water, drinking water, industrial and bio technology process streams and industrial process waste namely, brine waste and parts and fittings for all the aforesaid goods; water and waste treatment units incorporating magnetic ion exchange technology for the removal and treatment of contaminants from water namely ground water, municipal water, industrial process water, wastewater, waste streams, potable water, drinking water, industrial and bio technology process streams and industrial process waste namely, brine waste and parts and fittings for all the aforesaid goods; apparatus for lighting, heating, steam generating, cooking, refrigerating, drying, ventilating, water supply and sanitary purposes, namely, industrial furnaces, microwave ovens, water filters, namely, filters for drinking water, water filtering units for industrial use and parts and fittings for all the aforesaid goods; installations and apparatus, namely, waste water purification and filtration units for use in the treatment, processing and disposal of waste, waste streams, sewage, water slurries and of industrial and domestic effluents and parts and fittings for all the aforesaid goods; installations and apparatus, namely waste water purification and filtration units, machines and tanks for the handling of effluents and parts and fittings for all the aforesaid goods; installations and apparatus, namely, waste water purification and filtration units, machines and tanks for the removal of sludge from waste effluents and parts and fittings for all the aforesaid goods; flushing apparatus, namely flushometers and parts and fittings for all the aforesaid goods; purification installations for contaminants, namely, industrial process water purification machines, ground water purification machines, municipal water purification machines and parts and fittings for all the aforesaid goods; waste water treatment machines and parts and fittings for all the aforesaid goods; water treatment apparatus and machines, namely, sterilization units and parts and fittings for all the aforesaid goods; sewage disposal plants and parts and fittings for all the aforesaid goods; industrial process water, ground water and municipal water purification and filtration treatment installations for contaminants and parts and fittings for all the aforesaid goods; industrial process water purification and filtration machines, ground water purification and filtration machines, municipal water purification and filtration machines and parts and fittings for all the aforesaid goods; materials used for sealing, strengthening, stabilising, filling, masking, reinforcing, packing, stopping, water proofing or caulking, namely, cellular rubber, waterproof sealants; anti-corrosive coatings, namely insulating paints; materials used for sealing, strengthening, stabilising, filling, masking, reinforcing, packing, stopping, water proofing or caulking in mining, tunnelling, quarrying, oil and gas exploration, rock engineering, ground consolidation, building, civil engineering, construction and the explosives industry, namely, cellular rubber, waterproof sealants; construction mastics; sealants for ceiling, wall and floor tiles, wood panel and asphalt and plastic film for packing, cushioning or stuffing purposes; waterproof sealants; caulking compounds

(2) Equipment for the treatment and recycling and removal of contaminants from, water, industrial process water, wastewater, potable water, drinking water, sewerage, effluent, industrial and bio technology process streams and industrial process waste, namely, brine waste, namely, ion exchange columns for the treatment, recycling and removal of contaminants from drinking water, industrial process water, wastewater, potable water, sewerage

(3) chemicals used in industry, other than for the medical or veterinary industry, namely, artificial resins; agricultural chemicals, chemicals for use in the production of pulp and paper, chemicals for use in the production of inks and plastics, chemicals for use in separating and refining metals, chemicals for use in the production of industrial explosives; chemicals for use in industrial processes, namely, artificial resins, namely, ion exchange resins having magnetic properties for use in the removal of industrial contaminants, waste water flows and potable water sources, the extraction of materials from industrial and ore processing applications, and for use in ion exchange

applications; chemicals used in science, other than for medical or veterinary use namely, laboratory chemicals for research purposes, namely solvents, reagents, solutions, acids, bases, salts, buffers, amino acids, excipients, dyes, stains and organics; chemicals used in agriculture; chemicals for use in horticulture, except fungicides, weedkillers, herbicides, insecticides, parasiticides; chemicals for use in forestry, except fungicides, herbicides, insecticides and parasiticides; chemicals for use in herbicides; chemicals for use in pesticides; chemicals for use in fertilizers; chemical sizing compositions for use in the manufacture of paper; wood pulp for manufacturing purposes; chemical additives for oils; chemicals for use in the treatment of waste water, drinking water and waste water streams; chemical products for the treatment of sewerage; chemicals for the control of odour and corrosion in sewerage and effluent systems; ion-exchange resins; chemical products for use in testing water; polymers used in water treatment; chemicals for the control of environmental pollution, namely, catalytic agents for industrial use; chemical additives and preservatives for use in the manufacture of foods and beverages; food protein as a raw ingredient; chemical substances for preserving foodstuffs and beverages; flavour improvers, namely, chemical substances for preserving flavour in foodstuffs and beverages; chemical supplements for use in the manufacture of vitamins; chemical products for the preparation of flavourings for beverages and foodstuffs; chemical products for the processing of plastics; extraction chemicals for use in mining; chemical products for use in the extraction of minerals; chemical additives, preservatives and preparations for use in the metallurgical industry, namely, chemicals for use in separating and refining metals; chemical substances for use in the manufacture of perfumes; chemical products for use in the manufacture of fragrances; chemicals for the manufacture of paints; chemicals for the manufacture of pigments; industrial cleaning preparations namely, degreasing and cleaning solvents for use in manufacturing processes; chemical products for use in the manufacture of cleaning, sanitizing and disinfecting preparations; artificial resins; surface-active substances, namely, surfactants for use in connection with agricultural pesticides, surfactants for use in connection with agricultural fertilizer; surface-active chemical agents, namely, surfactants for use in the manufacture of synthetic detergents, surfactants for treating machinery used in printing processes, surfactants for use as drying aids, surfactants for use in the manufacture of animal foodstuffs; chemical additives and products for detergents for use in industrial processes; chemical additives and products for use in detergents for use in manufacturing processes; plasticizers; plastics as raw materials; industrial chemicals for the control of odour and corrosion in waste stream; salts for industrial purposes, namely, inorganic salts, aluminium salts, ammoniacal salts, ammonium salts, calcium salts, chrome salts, chromic salts, gluconic salts, gold salts, iodised salts, iron salts, magnesium salts, mercury salts, metal salts, potassium salts, salts (fertilisers), sodium salts (chemical compounds), salts organic acid, salts of metals; industrial gases, namely, gases for welding, gases for laboratory use (other than for medical use), gases for use in cutting, gases for use in air conditioners, gases for use in burning, gases for use in dispensing liquids, gases for use in flame spraying, gases for use in metal production, gases for use with aerosols, gas with heat insulating effects, gas with sound insulating effects; refrigerants; industrial minerals; chemicals used in photography; manures; fire extinguishing compositions; tempering and soldering preparations; tanning substances; primers, namely, expoxy primers, sealant primers, paint primers; paint thinners; paint thickeners; binding agents, namely, binding agents for paints; sealants, namely, paint sealers; pigments for use in the manufacture of coloured paper, cosmetics, pharmaceuticals, printing inks, synthetic fibres; pigments having bronzing properties; organic pigments; fire retardant pigments; electrically conductive pigments for use in manufacture of lacquers; inorganic metal oxide pigments; silver emulsion pigments; titanium pigments; preservatives and coatings against rust, tarnishing, abrasion, corrosion, heat, flames, damp, mould, vandalism; preservatives and coatings against deterioration of wood, metal, stone, concrete, masonry, brickwork, surfaces of structures; colorants

for application to wood; colourants for beverages, food, paints, grouts, leather, mortars, concrete, textiles, printing inks; tinters for paints; mordants, namely, mordant dyes, mordant fixatives for water colours, mordant fixatives in the nature of varnishes, mordants for wood; dyestuffs for textiles; dyestuffs for wood; annatto (dyestuffs); annotto (dyestuffs); dyes, namely, alizarin dyes, aniline dyes, fabric dyes, food dyes, wood dyes, shoes dyes and solvent dyes for wood; inks; raw natural resins; oils namely, oil paints and oils in the nature of preservatives and coating against rust, corrosion, tarnishing and preserving against deterioration of wood or metal or other surfaces; mastic for use as varnish; powders, namely, powered paints, powdered resin paints; toners in the nature of dyestuffs; waxes, namely, wax-based varnishes; machines and machine tools, namely milling machines and parts and fittings for all the aforesaid goods; machines used in the treatment of drinking water, waste water, waste streams, effluent and sewerage and parts and fittings for all the aforesaid goods; apparatus namely, hydraulic controls for controlling the operation of machines and parts and fittings for all the aforesaid goods; chemical handling machines, cleaning apparatus namely, industrial fluid cleaning machines, abrasive blast cleaning machines, namely, for industrial and manufacturing purposes, dosing machines, chemical dosing units and parts and fittings for all the aforesaid goods; equipment for the treatment and recycling and removal of contaminants, namely, for the regeneration of ion exchange resin and recycling of brine and other waste created from the process of using ion exchange resin to remove contaminants from water namely ground water, municipal water, industrial process water, wastewater, waste streams, potable water, drinking water, sewerage, effluent, industrial and bio technology process streams and industrial process waste namely, brine waste and parts and fittings for all the aforesaid goods; ion-exchange system for treating drinking water, wastewater, waste streams, and industrial process water, comprised of reservoirs, pumps, and mixers, and a magnetic ion exchange resin, for removing various contaminants and parts and fittings for all the aforesaid goods; waste purification units incorporating magnetic ion exchange technology for the treatment and recycling and removal of contaminants from water namely, ground water, municipal water, industrial process water, wastewater, waste streams, potable water, drinking water, industrial and bio technology process streams and industrial process waste namely, brine waste and parts and fittings for all the aforesaid goods; water and waste treatment units incorporating magnetic ion exchange technology for the removal and treatment of contaminants from water namely, ground water, municipal water, industrial process water, wastewater, waste streams, potable water, drinking water, industrial and bio technology process streams and industrial process waste namely, brine waste and parts and fittings for all the aforesaid goods; apparatus for lighting, heating, steam generating, cooking, refrigerating, drying, ventilating, water supply and sanitary purposes, namely, industrial furnaces, microwave ovens, water filters, namely, filters for drinking water, water filtering units for industrial use and parts and fittings for all the aforesaid goods; installations and apparatus, namely, waste water purification and filtration units for use in the treatment, processing and disposal of waste, waste streams, sewage, water slurries and of industrial and domestic effluents and parts and fittings for all the aforesaid goods; installations and apparatus, namely waste water purification and filtration units, machines and tanks for the handling of effluents and parts and fittings for all the aforesaid goods; installations and apparatus, namely, waste water purification and filtration units, machines and tanks for the removal of sludge from waste effluents and parts and fittings for all the aforesaid goods; flushing apparatus, namely flushometers and parts and fittings for all the aforesaid goods; purification installations for contaminants, namely, industrial process water purification machines, ground water purification machines, municipal water purification machines and parts and fittings for all the aforesaid goods; waste water treatment machines and parts and fittings for all the aforesaid goods; water treatment apparatus and machines, namely, sterilization units and parts and fittings for all the aforesaid goods; sewage disposal plants and parts and fittings for all the aforesaid goods; industrial process water, ground water and municipal water

purification and filtration treatment installations for contaminants and parts and fittings for all the aforesaid goods; industrial process water purification and filtration machines, ground water purification and filtration machines, municipal water purification and filtration machines and parts and fittings for all the aforesaid goods; materials used for sealing, strengthening, stabilising, filling, masking, reinforcing, packing, stopping, water proofing or caulking, namely, cellular rubber, waterproof sealants; anti-corrosive coatings, namely insulating paints; materials used for sealing, strengthening, stabilising, filling, masking, reinforcing, packing, stopping, water proofing or caulking in mining, tunnelling, quarrying, oil and gas exploration, rock engineering, ground consolidation, building, civil engineering, construction and the explosives industry, namely, cellular rubber, waterproof sealants; construction mastics; sealants for ceiling, wall and floor tiles, wood panel and asphalt and plastic film for packing, cushioning or stuffing purposes; waterproof sealants; caulking compounds

(4) chemicals used in science, other than for medical or veterinary use namely, laboratory chemicals for research purposes, namely solvents, reagents, solutions, acids, bases, salts, buffers, amino acids, excipients, dyes, stains and organics; chemicals used in agriculture; chemicals for use in horticulture, except fungicides, weedkillers, herbicides, insecticides, parasiticides; chemicals for use in forestry, except fungicides, herbicides, insecticides and parasiticides; chemicals for use in herbicides; chemicals for use in pesticides; chemicals for use in fertilizers; chemical sizing compositions for use in the manufacture of paper; wood pulp for manufacturing purposes; chemical additives for oils; chemicals for use in the treatment of waste water, drinking water and waste water streams; chemical products for the treatment of sewerage; chemicals for the control of odour and corrosion in sewerage and effluent systems; chemical products for use in testing water; polymers used in water treatment; chemicals for the control of environmental pollution, namely, catalytic agents for industrial use; chemical additives and preservatives for use in the manufacture of foods and beverages; food protein as a raw ingredient; chemical substances for preserving foodstuffs and beverages; flavour improvers, namely, chemical substances for preserving flavour in foodstuffs and beverages; chemical supplements for use in the manufacture of vitamins; chemical products for the preparation of flavourings for beverages and foodstuffs; chemical products for the processing of plastics; extraction chemicals for use in mining; chemical products for use in the extraction of minerals; chemical substances for use in the manufacture of perfumes; chemical products for use in the manufacture of fragrances; chemicals for the manufacture of paints; chemicals for the manufacture of pigments; industrial cleaning preparations namely, degreasing and cleaning solvents for use in manufacturing processes; chemical products for use in the manufacture of cleaning, sanitizing and disinfecting preparations; surface-active substances, namely, surfactants for use in connection with agricultural pesticides, surfactants for use in connection with agricultural fertilizer; surface-active chemical agents, namely, surfactants for use in the manufacture of synthetic detergents, surfactants for treating machinery used in printing processes, surfactants for use as drying aids, surfactants for use in the manufacture of animal foodstuffs; chemical additives and products for detergents for use in industrial processes; chemical additives and products for use in detergents for use in manufacturing processes; plasticizers; plastics as raw materials; industrial chemicals for the control of odour and corrosion in waste stream; salts for industrial purposes, namely, inorganic salts, aluminium salts, ammoniacal salts, ammonium salts, calcium salts, chrome salts, chromic salts, gluconic salts, gold salts, iodised salts, iron salts, magnesium salts, mercury salts, metal salts, potassium salts, salts (fertilisers), sodium salts (chemical compounds), salts organic acid, salts of metals; industrial gases, namely, gases for welding, gases for laboratory use (other than for medical use), gases for use in cutting, gases for use in air conditioners, gases for use in burning, gases for use in dispensing liquids, gases for use in flame spraying, gases for use in metal production, gases for use with aerosols, gas with heat insulating effects, gas with sound

insulating effects; refrigerants; industrial minerals; chemicals used in photography; manures; fire extinguishing compositions; tempering and soldering preparations; tanning substances; expoxy primers, sealant primers, paint primers, synthetic resin primers; paint thinners, paint thickeners; binding agents, namely, binding agents for paints; sealants, namely, paint sealers; pigments for use in the manufacture of coloured paper, cosmetics, pharmaceuticals, printing inks, synthetic fibres; pigments having bronzing properties; organic pigments; fire retardant pigments; electrically conductive pigments for use in manufacture of lacquers; inorganic metal oxide pigments; silver emulsion pigments; titanium pigments; preservatives and coatings against rust, tarnishing, abrasion, corrosion, heat, flames, damp, mould, vandalism; preservatives and coatings against deterioration of wood, metal, stone, concrete, masonry, brickwork, surfaces of structures; colorants for application to wood; grouts, leather, mortars, concrete, textiles, printing inks; tinters for paints; mordants, namely, mordant dyes, mordant fixatives for water colours, mordant fixatives in the nature of varnishes, mordants for wood; dyestuffs for textiles; dyestuffs for wood; annatto (dyestuffs); annotto (dyestuffs); dyes, namely, alizarin dyes, aniline dyes, fabric dyes, food dyes, wood dyes, shoes dyes and solvent dyes for wood; inks; raw natural resins; oils namely, oil paints and oils in the nature of preservatives and coating against rust, corrosion, tarnishing and preserving against deterioration of wood or metal or other surfaces; mastic for use as varnish; powders, namely, powered paints, powdered resin paints; toners in the nature of dyestuffs; waxes, namely, wax-based varnishes; machines and machine tools, namely milling machines and parts and fittings for all the aforesaid goods; machines used in the treatment of drinking water, waste water, waste streams, effluent and sewerage and parts and fittings for all the aforesaid goods; apparatus namely, hydraulic controls for controlling the operation of machines and parts and fittings for all the aforesaid goods; chemical handling machines, cleaning apparatus namely, industrial fluid cleaning machines, abrasive blast cleaning machines, namely, for industrial and manufacturing purposes, dosing machines, chemical dosing units and parts and fittings for all the aforesaid goods; equipment for the treatment and recycling and removal of contaminants, namely, for the regeneration of ion exchange resin and recycling of brine and other waste created from the process of using ion exchange resin to remove contaminants from industrial process water, wastewater, waste streams, potable water, drinking water, sewerage, effluent, industrial and bio technology process streams and industrial process waste namely, brine waste and parts and fittings for all the aforesaid goods; ion-exchange system for treating drinking water, wastewater, waste streams, and industrial process water, comprised of reservoirs, pumps, and mixers, and a magnetic ion exchange resin, for removing various contaminants and parts and fittings for all the aforesaid goods; waste purification units incorporating magnetic ion exchange technology for the treatment and recycling and removal of contaminants from industrial process water, wastewater, waste streams, potable water, drinking water, industrial and bio technology process streams and industrial process waste namely, brine waste and parts and fittings for all the aforesaid goods; water and waste treatment units incorporating magnetic ion exchange technology for the removal and treatment of contaminants from water namely, ground water, municipal water, industrial process water, wastewater, waste streams, potable water, drinking water, industrial and bio technology process streams and industrial process waste namely, brine waste and parts and fittings for all the aforesaid goods; apparatus for lighting, heating, steam generating, cooking, refrigerating, drying, ventilating, water supply and sanitary purposes, namely, industrial furnaces, microwave ovens, water filters, namely, filters for drinking water, water filtering units for industrial use and parts and fittings for all the aforesaid goods; installations and apparatus, namely, waste water purification and filtration units for use in the treatment, processing and disposal of waste, waste streams, sewage, water slurries and of industrial and domestic effluents and parts and fittings for all the aforesaid goods; installations and apparatus, namely waste water purification and filtration units, machines and tanks for the handling of effluents and parts and fittings for all the

aforesaid goods; installations and apparatus, namely, waste water purification and filtration units, machines and tanks for the removal of sludge from waste effluents and parts and fittings for all the aforesaid goods; flushing apparatus, namely flushometers and parts and fittings for all the aforesaid goods; water supply installations, namely, industrial water tanks and parts and fittings for all the aforesaid goods; purification installations for contaminants, namely, industrial process water purification machines, ground water purification machines, municipal water purification machines and parts and fittings for all the aforesaid goods; waste water treatment machines and parts and fittings for all the aforesaid goods; water treatment apparatus and machines, namely, sterilization units and parts and fittings for all the aforesaid goods; sewage disposal plants and parts and fittings for all the aforesaid goods; drinking water purification and filtration treatment installations for contaminants and parts and fittings for all the aforesaid goods; drinking water purification and filtration machines and parts and fittings for all the aforesaid goods; materials used for sealing, strengthening, stabilising, filling, masking, reinforcing, packing, stopping, water proofing or caulking, namely, cellular rubber, waterproof sealants; anti-corrosive coatings, namely insulating paints; materials used for sealing, strengthening, stabilising, filling, masking, reinforcing, packing, stopping, water proofing or caulking in mining, tunnelling, quarrying, oil and gas exploration, rock engineering, ground consolidation, building, civil engineering, construction and the explosives industry, namely, cellular rubber, waterproof sealants; stopping insulating materials, adhesive putty; construction mastics; sealants for ceiling, wall and floor tiles, wood panel and asphalt and plastic film for packing, cushioning or stuffing purposes; waterproof sealants; caulking compounds

SERVICES

(1) installation, maintenance, repair, rental and leasing of apparatus and equipment, namely, cleaning machines and construction equipment , all relating to the cleaning, sanitizing, sanitation, disinfection, sterilisation, protection, construction, building, installation, maintenance, decoration and repair of surfaces, machinery, premises and manufacturing plants and providing information about the aforementioned services, in person or via the Internet; rental of equipment for handling and storage of chemicals and providing information about the aforementioned services, in person or via the Internet; rental and leasing of chemical dosing units and providing information about the aforementioned services, in person or via the Internet; Installation, maintenance and repair of equipment for the treatment and recycling and removal of contaminants from industrial process water, wastewater, waste streams, potable water, drinking water, industrial and bio technology process streams and industrial process waste namely brine waste, namely for water and waste treatment units incorporating magnetic ion exchange technology and providing information about the aforementioned services, in person or via the Internet; installation, maintenance and repair of chemical dosing units and providing information about the aforementioned services, in person or via the Internet; information, advisory and consultation services in relation to the foregoing, namely, providing information about the installation, maintenance and repair of chemical dosing units, providing advice and consulting services regarding the installation, maintenance and repair of chemical dosing units and providing information about the aforementioned services, in person or via the Internet; material treatment services namely, treatment of waste water and providing information about the aforementioned services, in person or via the Internet; water, waste streams, sewerage, effluent and waste water treatment services, namely, recycling of paints and chemicals and treatment of sewerage, effluent and waste water and providing information about the aforementioned services, in person or via the Internet; services related to chemical reagents, food, beverages and explosives compositions, namely, custom manufacture of food, beverages and explosives compositions and providing information about the aforementioned services, in person or via the Internet; waste and waste brine removal, treatment and disposal and providing

information about the aforementioned services, in person or via the Internet; waste management, collection, treatment and recycling services and providing information about the aforementioned services, in person or via the Internet; services for the control of odour and corrosion in waste streams, sewerage and effluent systems and providing information about the aforementioned services, in person or via the Internet; decontamination of hazardous materials and providing information about the aforementioned services, in person or via the Internet; pollution control services, namely, recycling of industrial waste and providing information about the aforementioned services, in person or via the Internet; surface treatment services, namely, coating and surface finishing of sewer walls and sewer infrastructure and providing information about the aforementioned services, in person or via the Internet; coating services, namely metal plating and providing information about the aforementioned services, in person or via the Internet; rental and leasing of equipment for the treatment and recycling and removal of contaminants from, water, waste stream, industrial process water, wastewater, potable water, drinking water, industrial and bio technology process streams and industrial process waste namely brine waste and providing information about the aforementioned services, in person or via the Internet; rental and leasing of chemical dosing units and providing information about the aforementioned services, in person or via the Internet; waste water purification services and providing information about the aforementioned services, in person or via the Internet; waste and waste brine removal, treatment and disposal and providing information about the aforementioned services, in person or via the Internet; treatment and processing of waste, sewage, water slurries and of industrial and domestic effluents and providing information about the aforementioned services, in person or via the Internet; screening, purifying, separating and cleaning, all relating to effluents and providing information about the aforementioned services, in person or via the Internet; removal and drying of sludge from slurries and providing information about the aforementioned services, in person or via the Internet; recycling of oils, chemicals and of water and providing information about the aforementioned services, in person or via the Internet.

(2) rental and leasing of chemical dosing units; installation, maintenance and repair of chemical dosing units

(3) material treatment services namely, treatment of waste water and providing information about the aforementioned services, in person or via the Internet; water, waste streams, sewerage, effluent and waste water treatment services, namely, recycling of paints and chemicals and treatment of potable water, drinking water, sewerage, effluent and waste water and providing information about the aforementioned services, in person or via the Internet; services related to chemical reagents, food, beverages and explosives compositions, namely, custom manufacture of chemical reagents, food, beverages and explosives compositions and providing information about the aforementioned services, in person or via the Internet; waste and waste brine removal, treatment and disposal and providing information about the aforementioned services, in person or via the Internet; waste management, collection, treatment and recycling services and providing information about the aforementioned services, in person or via the Internet; services for the control of odour and corrosion in waste streams, sewerage and effluent systems and providing information about the aforementioned services, in person or via the Internet; decontamination of hazardous materials and providing information about the aforementioned services, in person or via the Internet; pollution control services, namely, recycling of industrial waste and providing information about the aforementioned services, in person or via the Internet; coating services, namely metal plating and providing information about the aforementioned services, in person or via the Internet; treatment of toxic material, namely, hazardous liquids, namely, industrial toxic waste treatment and providing information about the aforementioned services, in person or via the Internet; rental and leasing of equipment for the treatment and recycling and removal of

contaminants from waste stream, industrial process water, wastewater, potable water, drinking water, industrial and bio technology process streams and industrial process waste namely brine waste and providing information about the aforementioned services, in person or via the Internet; rental and leasing of chemical dosing units and providing information about the aforementioned services, in person or via the Internet; waste water purification services and providing information about the aforementioned services, in person or via the Internet; waste and waste brine removal, treatment and disposal and providing information about the aforementioned services, in person or via the Internet; treatment and processing of waste, sewage, water slurries and of industrial and domestic effluents and providing information about the aforementioned services, in person or via the Internet; screening, purifying, separating and cleaning, all relating to effluents and providing information about the aforementioned services, in person or via the Internet; removal and drying of sludge from slurries and providing information about the aforementioned services, in person or via the Internet; recycling of oils, chemicals and of water and providing information about the aforementioned services, in person or via the Internet.
